

Custodius is the only Canadian company offering paper Will storage, and stands as a beacon of trust and reliability in the field of estate planning. Developed by lawyers for lawyers, Custodius partners with law firms to offer premier Will storage services to clients across Canada. With a steadfast commitment to preserving legacies in a safe and affordable way, Custodius has emerged as the leading provider in the industry, redefining the standards of safe Will storage while offering a searchable online platform designed for longevity and convenience.

At the heart of Custodius lies an understanding of the importance of Wills and testamentary documents. Recognizing these documents as some of the most important a person will own, Custodius approaches its mission with earnest diligence. The company's operations are focused entirely on facilitating the safe long-term storage of Wills.

Custodius prides itself on its state-of-the-art infrastructure, ensuring that Wills are safeguarded with the utmost vigilance. From modern encryption protocols to secure storage facilities equipped with advanced waterless fire suppression systems, every measure is taken to fortify the trust that Custodius has built with our partners and clients.

Custodius understands that lawyers are very busy, and that convenience is key in today's fast-paced world. Through its user-friendly digital platform, our partner firms have a secure database of their Will storage clients at their fingertips. Documents are QR coded with a unique identifier and their location can be tracked at all times. Registration of new clients, Will replacement, and Will retrieval happen with the simple click of a button. Our partners can securely upload, access, and manage their documents with ease, anytime and anywhere, at no cost to them. Their clients enjoy affordable peace-of-mind knowing their Will is safe and easily retrievable when it is needed.

Custodius is driven by a deeper purpose – we know that the number one threat to a Will isn't fire, water, or theft. The greatest threat, by far, is loss. For some testators, the Will they tried to keep safe at home was lost when they were downsized to a nursing home. For some testators who stored their Will with their lawyer, they didn't anticipate that their lawyer's name would be long forgotten by their family, or that the lawyer was no longer in practice when they died. Our moto is "No More Lost Wills", a goal we achieve by offering a single, affordable place where anyone can store their Will, and any Canadian lawyer can search and retrieve it. By providing a trusted network for estate document storage, Custodius empowers its clients to leave behind not just assets, but a legacy of clarity, certainty, and peace of mind.

In essence, Custodius is more than a company; it is a custodian of trust, a guardian of legacies, and a source of reassurance. As it continues to evolve and innovate, Custodius remains steadfast in its commitment to serving its clients with integrity, professionalism, and unwavering dedication.
