

Software with a mission

Offering Ontario Lawyers a Fast And Easy-To-Use Conveyancing Software Solution at Affordable Pricing

At the core of our mission is the commitment to keeping lawyers as the centre of every deal in the quickly changing conveyancing landscape. We recognize that the legal profession is the bedrock of ensuring smooth, lawful property transfers and we plan to protect this.

To achieve this aim, we have pioneered LCS (Lawyer Conveyance System), a state-of-the-art web-based platform crafted to empower law firms in the seamless processing of real estate closings, all while maintaining an affordable price point.

LCS stands as a testament to innovation and dedication, carefully honed by the invaluable contributions of law clerks—the unsung heroes of conveyancing. These dedicated professionals, intimately familiar with the intricacies of property transactions, played a pivotal role in fine-tuning LCS to meet their unique needs and desires. The result is a platform that not only simplifies but also elevates the conveyancing process to new heights.

LCS was not merely adapted from existing solutions; it was meticulously crafted from the ground up using cutting-edge technology. This approach ensures lightning-fast performance and scalability, allowing legal professionals to efficiently manage multiple deals without compromising on quality. We believe that technology should be an enabler, not a hindrance, in the legal world.

One of the critical aspects of any real estate transaction is the title search, a process that can be fraught with complexities. With LCS, we simplify this crucial step by providing access to comprehensive title search tools and resources. This feature enables users to delve deep into property histories, ensuring that no detail is overlooked.

We value the concept of having high quality data available to our users starting on day one. This is why our comprehensive database of lawyers closely aligns with the caliber of the Law Society of Ontario, and other like-societies, so that you always have the latest information at your fingertips.

In conclusion, LCS is a testament to the collaborative spirit of the legal profession—a tool built by experienced real estate lawyers who seek to give back to the profession by providing a valuable resource at a reasonable cost. With LCS, we empower lawyers and law clerks to stay at the centre of every deal, ensuring that the legal profession remains the bedrock of real estate transactions, just as it should be.
