

The True Canadian All-in-One Legal Practice Management Platform

Get started now

Book a demo

Power up with these capabilities

Centralized legal docs

Get control of your legal documents with secure sharing and automated filing rules that mirror your matter hierarchy. Draft, annotate, redline, and approve—Faster.

Canadian accounting

Accounting built for Canadian law firms, with native trust accounting features. One-click reconciliation, automated retainer reminders, and complete integration with time-tracking and billing to keep you worry-free at month-end.

Client Intake

Streamline your law firm's client onboarding with customizable digital intake forms. Easily embed these forms on your website, allowing clients to submit their information directly.

Moving to RunSensible

White-Glove Onboarding & Support

Dedicated legal tech engineer, tailored rollout plan, and a support team always on call—so your team adopt quickly and stay productive.

Browser-Native: Zero IT Overhead

Works anywhere Chrome, Edge or Safari does. Secure Canadian data hosting, SSO, and granular role-based permissions built in.

True All-in-One Practice Management Platform

Seamlessly manage matters, communicate with clients, and power your growth with integrated marketing and automation tools—from one unified platform.
